Long-term Goals

At DogeZilla our long term goal is to increase security in the crypto market. We believe in our project is game changing and truly for the better of crypto. Our disruptive approach and compound fashion of doing things will ensure we carve and fill a gap in this space that is apparently much needed.

1. Adoption of memecoin - *As an experimental project, we will remain memecoin and bring entertainment to the community in the form of memes/gifs/videos and simply enjoy our community. It's as simple as supporting DogeZilla 100% and bringing together people and continuously bringing new members onboard.*

2. Raise awareness - *By organically spreading the world of DogeZilla and explaining its purpose in the space and letting people know it's potential to change lives simply by allowing members to support it's meme natured project, awareness can be spread virally and compound naturally. Organic growth is the most stable and true form of marketing and the entire DogeZilla community is 100% focused on this method of word of mouth.*

3. Expand globally & innovate - *With acquiring and being listed many CEXs we will gain global exposure and eventually enter Binance which we call the Hall of Fame because thats where all Legends go to hang their coat. But we won't stop there when we reach Binance, that is where the true innovation begins.*

Quarterly Goals

2023 Quarter 4 - Launch & Coin Market Cap Listing

2024 Quarter 1 - Enter 5 CEXs / Launch NFTs on OpenSea

2024 Quarter 2 - Enter 10 CEXs / Launch ZillaSwap

2024 Quarter 4 - Enter Binance / Launch Vault

Beyond - ZillaLegends, ZillaVerse, Zillex. Continue innovations...

Our Beliefs

We believe that all men have goodness in their hearts, in the idea that if we do good, good things will also reciprocate and cause a domino effect across our community and extend beyond to unimaginable degrees. We believe that everyone can contribute in a good way into the world. Even if they are new to the community and haven't fully considered cryptocurrency as a source of exchange, can finally do so in this new age of currency.

We believe that the idea of cryptocurrency should be made available freely in terms of spreading knowledge of a relatively new decentralized and efficient means of exchange. As a community and as members of society, we stand behind the idea of working together in unity and believe we can achieve great things when it is done together with purpose and haste.

Our Philosophy

We as a community are fascinated by the power of compound, the single greatest source of force in the Universe, a phenomenon claimed by *Albert Einstein* to be the 8th wonder of the world.

The germination of an idea starts from a single source then it can spread and take root into the community and soon adoption of the concept begins to initiate. When the majority and mainstream also agrees, the idea and concept then becomes something else entirely. It becomes a new way of doing things.

DogeZilla's even though we are a primarily a memecoin, it does not mean we will never do anything useful in the future. Some of the communities innovations and ideas in the space are some of the most visionary revolutionary concepts that can bring value across all global communities, which only time will show the true potential of the DogeZilla community.

The lines are of varying lengths and angles, connecting small circular nodes. The overall shape is roughly triangular, pointing towards the bottom right corner.

Expansion

DogeZilla community is made to adapt to new changes in the cryptospace and as we move to the future, our members will continuously innovate and bring new ground breaking concepts for future projects.

Currently, DogeZilla will be primarily focused on the meme-natured side of the project and just simply enjoy each members company and have a good time together as a community.

We will make it known in the cryptospace that it doesn't require massive amounts of money to become great, and it doesn't require some revolutionary project which has been backed by Venture Capitalists funding.

We will make it known that DogeZilla is a project powered by the people, made for the people. At the end of the day, talent and power in numbers is what defines DogeZilla, and we do not lack talent and numbers.

When the time is right, we may expand to other areas in the cryptospace: DeFi, NFTs, Gaming, Exchanges, Blockchain Innovations, and Swaps. **Our goal is to make DogeZilla a household name. We won't stop until we conquer.**

About Us

DogeZilla is a Binance Smart Chain (BEP-20) experimental memecoin community driven project that exploded right before the crash of Bitcoin in 2021 and never had an opportunity to show its true potential. In 8 short days, DogeZilla gained over 160,000+ holders and reached a cosmic market-cap of \$600 million¹. At the time, DogeZilla even had more daily volume than Shiba Inu, Safemoon, and Floki combined.

DogeZilla was sprouted out of necessity due to the increasing scams and rugpulls around the crypto-space. After being victims of countless scams, the Founder (9ZEROES) decided to make a project and token for the community that will serve a legitimate purpose. Vault was the vision of a better crypto space with a doxxing platform and launchpad for investors worldwide, but after the crash left many investors bitter and also developers leaving Vault unfinished.

Fast-forward about 2 years, DogeZilla community still remains passionate and still wants DogeZilla to live on to become one of the greats. DogeZilla is now focused on ZillaSwap – A multichain swap to allow users to swap effortlessly between different blockchains. The mission is simple: Get into as many CEX's as possible and End game is to enter Binance.

Mission & Vision

DogeZilla's mission now is to spread the word that nothing is impossible in life. Whatever dreams, goals, imagination, ideas, change, and visions that we have, we can achieve it. Everything is possible when community stands together and focus on a single point. Like Bruce Lee says "The successful warrior is the average man, with laser focus." That is a fact and it does not just apply to a single man, but an entire community. To be successful all it takes is a single focus unified together on a single mission to be great.
